Introduction

Proactive individual who is aiming to become a Fellow Actuary. Possess a solid foundation in mathematical analysis in Excel and modelling in Python. Have cleared **5** actuarial exams.

Curious to contribute to actuarial work, data analytics, and risk modelling projects by leveraging strong technical skills, and an analytic approach to problem-solving.

Work Experience

Actuarial Technician – II ~ *Forvis Mazars*

Sept 2026 – Present

- Trained **20+** professionals in fundamentals of Python, upskilling them to a standard required for firm's growth.
- Mentored other Tech-Is in line with company's expectations and standards.

Actuarial Technician – I ~ *Forvis Mazars*

Sept 2025 – Aug 2026

- Been awarded [Rising Star](#) award for the models developed in Python, constantly exceeding expectations among company's directors.
- Prepared reports for one of the firm's **largest Non-Life Audit** clients and for one of **Lloyd's in the UK**, adhering closely to regulatory standards like **UK GAAP** and **Solvency II**.
- Prepared **Life models** for Unit – Linked product in **Python**, version controlled in **GitHub**.
- Leveraged **AI** to build automated workflows for the firm, bringing efficiency by up to **12x** times.

Internships

Market Segmentation Intern ~ *Feynn Labs*: [Work Files](#)

Jan 2025 – Mar 2025

- Formulated a business model on Electric Vehicles in India and applied Market Segmentation Analysis on datasets to derive meaningful insights for successful adoption of the proposed model.

Education

Actuarial Exams (5/13) ~ *Institute and Faculty of Actuaries*

- CB1 : Core Business I
- CM2 : Core Mathematics II
- CM1 : Core Mathematics I
- CS2 : Core Statistics II
- CS1 : Core Statistics I

BSc. (Hons) Mathematics ~ *University of Delhi*

June 2022 – June 2025

- Successfully completed Honors degree. Scored **8.1** CGPA ([Marksheet](#))

Skills

Technical skills

- Proficient in advanced MS Office.
- Experienced with Python & VBA Modelling.
- Fundamentals of Neural Networks.
- Version controlling on GitHub.

Soft skills

- Analytical & Critical Thinking
- Team Worker
- Time and Priority Management
- Curious and Proactive.

Hobbies

- Developing and visualizing financial and budget tracking tools in Excel.
- Understanding niche AI roles in Actuarial Science.
- Paper Crafting.
